Joshua Aragon

Software Engineer

Software Engineer with experience at both small startups and enterprise-grade companies, strong attention to detail, and strong teamskills. This experience has been used to achieve results such as seeing improvements in SkillSuites and UVU's conversion rates, & leading other developers to use modern methodologies like BEM & layout tools such as CSS Grid to create responsive UI's.

WORK EXPERIENCE

Software Engineer Intern
Microsoft
05/2022 - 08/2022   *Seattle, WA*
Achievements/Tasks
- Created an info pane for information in email conversations in outlook.
- Used Reactjs, Satcheljs and Graphql to complete the info pane.

Software Engineer
Wavv Communications
04/2021 - Present   *REMOTE*
Telecommunication software.
Achievements/Tasks
- Developed with Reactjs on the front-end and Nodejs on the backend.
- Added a new product to make ringless voicemail, which many customers wanted.
- Overhauled transition from Javascript to Typescript accelerating dev work and alleviating quality assurance (QA) workload.
- Participated in pair programming to write and test clean, well-structured code in effort to avoid quality issues. Closely collaborated with the product managers and designer.

Front-end Developer
SkillSuite
10/2019 - 04/2021   *Vineyard, UT*
Learning Management System
Achievements/Tasks
- React Developer on the Front-end team. Was assigned as the Lead developer.
- Overhauled transition from Javascript to Typescript accelerating dev work and alleviating quality assurance (QA) workload. This reduced my sprint time by 1 to 2 days.
- Participated in Agile sprint planning/grooming, and 1 daily stand-up meeting. Guided by Scrum (2 week sprints)

Web Developer
UVU
03/2019 - 10/2019   *Orem, UT*
Utah Valley University, CHPS College
Achievements/Tasks
- Focused on front-end development for different colleges in the university.
- Collaborated with Marketing and the client to estimate project expectations and time frames for completion of their websites.

EDUCATION

B.S. Software Engineering, Minor Computer Science
Utah Valley University
08/2018 - 04/2023   *Orem, Utah*
Courses
- **Relevant Coursework:** Data Structures, Algorithms, Discrete Math, Computer, OOPS, Computer Organization Architecture
- Led a group of students practicing Leet Code problems and walking through them together.

PERSONAL PROJECTS

Portfolio Web Apps & GitHub Repos.
(01/2018 - Present) - My Website
thebrogrammer.netlify.app lists a variety of projects in a concise, filterable, and visual manner. -
I've created several YouTube video tutorials on coding concepts.

Focused Extension
(10/2020 - Present)
Used Reactjs to create a web App that is meant for users to add as a chrome extension that
motivates them every time they open a new tab. - Used several different apis to get information
to display such as the weather and facts.
